### **REASONS FOR ALLOWANCE**

1. Claims 1 - 11 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or suggest the combination of elements recited in Claim 1, including "the coil spring being operable to be rotated to move relatively to the driving member". The prior art of JP 1-92026, discloses switch with a spring, but the spring is not connected to a motor. The prior art of JP 2001-297652, discloses motor operated switch, however, the switch is connected to a screw shaft and is operated to move up and down by threaded engagement of switch screw shaft with the threads in the gear. The prior art of JP 02-037627, discloses a motor connected to gear mechanism and the gear operates a switch with a spring in-line with the gear shaft, however, the spring is not operable to be rotated relative to the driving member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
